MicroMatte does not change the original appearance of the parent grain – and has clear cost advantages compared to paint

Defined gloss reduction now with MicroMatte

With the unique proven procedure 'MicroMatte' Standex achieves a permanent, anti-tickle 'low gloss finish' for plastic products – without modification of the initial look. 'MicroMatte' takes the plastic look out of plastics.

reduceme

MicroMatte reduces the gloss on the surface permanently – if desired below 1.0 points
